RAC Equipment Repair Request

ATTENTION: Make sure that you have spoken with a JAMAR representative before sending in equipment, to make sure that all troubleshooting has been covered. Many issues can be resolved over the telephone. Also, check the troubleshooting section of the RAC manual before sending unit in to be sure problem is with unit and not wiring, sensor, etc. Please include your sensor and Power Signal Cable; problems can exist in any part of the installation. The manual can be downloaded at www.jamartech.com.
